

I am asking that our phone privacy "do not call" list be kept in place. Before this law Bank One called us sometimes up to 3 times per day wanting us to take credit cards etc. First of all I want to say that it is OUR decision to contact the bank when WE have a need and we don't wish to be bothered with calls from them or any other bank. On a sick day home from work my wife laid in bed and the phone rang FOUR times...and every single time it was Bank One..this borders on harrassment!! Please continue to keep our privacy...if we want service WE will call THEM!
